Climate team's draft report identifies real solutions Dec 26, 2007

Proposed bills for 2008 legislative session incorporate team's recommendations

After ten months of deliberation, the State Climate Advisory Team has issued a draft interim report containing key recommendations for reducing greenhouse-gas emissions, creating new "green-collar" jobs and empowering local governments to build compact and transit oriented communities.

Recent Press Clips

Gov. Gregoire Announces Legislation to Fight Global Warming Jan 14, 2008

Gov. Chris Gregoire today announced major climate change legislation to reduce greenhouse gas emissions and create clean energy jobs.

Washington Legislature: It's time for action Jan 04, 2008

The public has awakened to the multiple threats of climate change to people, the economy and the environment. Now, the Legislature must turn that concern into action.

Seattle area a new hub for "clean" technology Jan 02, 2008

Michael Weaver began thinking about alternative energy while cruising around Puget Sound. About two and a half years ago, the newly minted software millionaire was spending a lot of time with his new yacht, but its poor fuel performance and the foul smell of diesel prompted Weaver to look for a cleaner alternative.

Taking Stock of Emissions - Greenhouse Gas Tally Dec 21, 2007

How much greenhouse gas are you emitting? The city of Vancouver is about to collect its first inventory of greenhouse gas emissions, both for the city government and for the community as a whole.
